

Master Plan

Elementary Classroom

Elementary Classroom

Children's Chapel

Preschool Lobby

Phase I of a master plan we did for an 80,000 SF office building conversion, this includes chapel space and classrooms for elementary and preschool age kids for Sunday school. The elementary wing (highlighted in blue) has a missions theme. The chapel includes a series of world maps with a light at different countries and then the classrooms are decorated with the elements from those same countries. The preschool wing (tan highlight) has a cartoon theme where each room is designed around a different animal character.
